In your experience, what areas of the bushfire emergency response didn't work well?  
In your experience, what needs to change to improve arrangements for preparation, mitigation, response and recovery coordination for national natural disaster arrangements in Australia?  
Is there anything else you would like to tell the Royal Commission?  
I live on [REDACTED] facing the Castlereagh reserve, we have been faced with fierce fires while living here in Llandilo leaving us no time to evaluate leaving myself and my family at risk.  
Every summer we live in fear waiting for the next fire.  
We have been very fortunate or lucky to have no loss of life but this has caused stress and fear throughout our lives while living her.  
Every year we are loosing our precious wildlife due to these fierce fires. We can change this and protect property, wildlife and people by back burning and under growth reduction. This needs to be carried out yearly.  
It will save lives and create jobs
