Your Submission

In your experience, what areas of the bushfire emergency response worked well?

We had a local phone 'fire tree', in the Bush, which was set off in the wee hours which was our first evacuation, back to Bega. Community looking out for each other.

On a larger scale, the rfs response was incredible, throughout.

In your experience, what areas of the bushfire emergency response didn't work well?

The prime ministers response.

In your experience, what needs to change to improve arrangements for preparation, mitigation, response and recovery coordination for national natural disaster arrangements in Australia?

Well, it's probably climate change. I think that's the most likely. But even if it isn't, we should move in that direction anyway.

Is there anything else you would like to tell the Royal Commission?
