

**Royal Commission**  
into National Natural  
Disaster Arrangements

## Submission Cover Sheet

This cover sheet has been prepared by the Commission's public contact team to accompany a submission.

### Person completing cover sheet

1. **Staff member name** [REDACTED]
2. **Date completed** 14.05.2020
3. **This cover sheet has been completed based on:**
  - details contained in the submission
  - a phone call with the person making the submission
  - an email from the person making the submission
  - Other (provide details) -

### Submission details

4. **Full name** [REDACTED]
5. **Email** [REDACTED]
6. **Telephone** [REDACTED]
7. **Preferred method of contact**
8. **Is the submission based on:**
  - primarily based on their personal situation.
  - primarily based on their professional knowledge, qualifications or experience, or on behalf of a group or organisation
9. **If the person is making the submission on behalf of a group or organisation, what is the name of the group or organisation:**

If the submission based on personal experience:

10. **What was their personal situation in relation to the 2019-20 Bushfires? Choose all that apply.**
    - were not living in an area affected by bushfire
    - were in an area affected by bushfires but was not evacuated, and didn't suffer personal or financial loss
    - lived in an area affected by bushfires and was evacuated, but didn't suffer personal or financial loss
-

- lived in an area affected by bushfires and was evacuated, and I suffered personal or financial loss
- part of the emergency response as a fire fighter on the ground
- part of the emergency response as an aerial fire fighter
- part of the emergency response as health professional
- part of the emergency response as an Australian Defence Force member
- part of the emergency response as a Commonwealth or State government employee
- assisted the emergency response as a community support volunteer
- assisted the emergency recovery (i.e. after the fire event) as a community support volunteer
- Other

**11. Where does the person live:**

Local Government Area	Choose an item.
Town name	Narangba
Post code	4504

If the submission is based on professional experience

**12. What is your area of expertise? Please choose all that apply.**

- Emergency/disaster response and/or management
- Environment/land management
- Land use, planning, building standards
- Impacts of changes in climatic conditions
- Wildlife conservation
- Traditional land and fire management practices of Indigenous Australians
- Community welfare
- Other

All submissions

**13. Does the person agree to their submission being published?**

- Yes, agree to the submission being published in their name
  - Yes, agree to the submission being published anonymously
  - No, does not agree to the submission being published
  - not stated
-

██████████ – Email – sent to RCNDA enquiries on 13 May 2020  
 ██████████

Thank you for your email, It took me longer to put together the Complaint to the CCC and tie it back to who knew what the levels of illegally Grown Lantana Camara is across our nation and also the Costs involved, with Corruption in all 3 levels of the Government from the Prime Minister on down to Premiers of QLD and NSW then it is important to document the dates and times that these people became aware of just how the council corruption was Created and the Crimes of Staff and Heads of Departments so that the Royal Commissions duty of care obligations are fulfilled or ignored as the case may be at their own risk.

The information supplied here for the CCC is designed so that they can now ask for supporting documents and dates of individuals for the purpose of Prosecution, Please keep in mind that the scale of these offenses has never been seen before in Australia's history and the questions of why each section of Government failed to take action to protect the Nations interests should be the real questions that the Royal Commission should be formally and properly taking account of rather than stating it's only interested in feel-good ideas and not laying blame at the feet of those criminals who circumvented their legal responsibilities, Please also keep in mind that the next wave of fires that are not far away now will see this entire subject reopened but with the number of deaths likely and the costs increasing then it will throw a very large spotlight on this Royal Commission and the CCC investigation into Illegally grown lantana Camara. I have spent the time since the fires Creating massive data collection of fuel loads before fires and you can do the same in Google earth and go back up to 12 years, In this timeline, I have driven from Brisbane to Canberra and all the way to Cairns collecting the information so no matter where the fires are we will be able to support local communities into the future for compensation for these crimes created by the corruption levels and the real questions are why no actions were taken by Premiers and Prime Ministers who were warned about the Corruption in Biosecurity and Councils. I hope the information is easily understood and I am happy to meet to discuss at your convenience.

Email sent to RCNDA enquiries on 9 April

I have over 40 + years experience in permanent Lantana Camara eradication experience and have no equal in the world, so I have been working continuously on the illegal corruption between the 3 levels of Government that Created the levels of the materials that have caused the little fires so far, I have documents from The Qld Premier that showed her knowledge that Councils were Circumventing both Environmental law and the Biosecurity Act 2014.

The level of Corruption from Bio Security Qld and Nsw that allowed the State Government entities that caused the fires is well documented and the links between them is openly and graphically displayed.

I am hopeful that you will take this seriously and openly investigate these levels with me as I take you for a tour through Qld around Brisbane and then I can do it in every State. It is my desire to cut off the next lot of fires, Because I have no equal in the world in my field then it is important to understand that the horrendous climate change and environmental catastrophe is only beginning after the fires and not over with like the Departments would like you to believe, When State Government Departments were responsible for the protection of the land and they caused the levels of fuel loads as I will prove to you then you start to understand the fires will only get bigger very soon unless we deal with the illegal operations of Councils, it is illegal for Councils to set laws at a lower level than the state Government then why does the Premiers of QLD, NSW and Victoria know that Councils biosecurity plans miss leading the public and openly lied to them. Bio Security departments admit they knew this and they turned blind eyes to the scale of the spread of these materials.

I look forward to meeting you and showing you this in person and then hopefully we can deal with this from there.

The Prime Ministers were also aware of the level of corruption over approximately 3 years and took no action at all.

You must see and understand the spread rates of Lantana Camara in dry conditions and then also in wet areas like roadways and mountain terrain to fully understand why the corruption led to the catastrophe we witnessed over the last 3 years, with each record being surpassed by the other till the 2020 fires in 3 states.

I am attaching my works I created to explain these materials illegally Grown on Crown and Council lands illegally and this must be included in the understanding.

In 2018 I was the first person in 158 years to prove that Lantana Camara seeds floated and this then led me to create The Sewer System of Identification of Threat analysis which I have attached, I believe it's very important for something as important as a Royal Commission to hear from people who are successful rather than be misled by Government Departments operating illegally with Councils which I can prove.
